PRIMARY EXAMINER

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

With regard to claims 1 and 14 the prior art fails to disclose a polyester wrap film having a cling energy of 0.5 to 2.5 mJ, a pulling out force of 5 to 100 cN, a surface roughness of 0.5 to 4.0 nm.

The examiner agrees with applicant's arguments of 4/5/06 in that the prior art fails to teach or suggest the surface roughness of the film and the pulling out force. The prior art also does not teach or suggest the relationship between the cling energy and the surface roughness of the film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
